### SAFETY WHILE AT YOUR YMCA

We need everyone's help to ensure a safe environment at the YMCA, so we ask our members and guests to... adhere to the following guidelines:

- Practice good social distancing while utilizing YMCA facilities. This means a minimum of 6 feet of distance between you and others when possible.
- We ask our members to come focused on their health routine. Please avoid forming groups of more than three individuals.
- Please sanitize equipment before and after each use.

\*This chart is subject to change at anytime pending current conditions in and around Wapello County. The Ottumwa Family YMCA administration may make revisions to this chart as needed to ensure the safety and well being of YMCA staff, members and guests.
